

***Congratulations to all the parents*** for such a productive year. We have seen each one of you develop through your participation in and commitment to the Urban Imagination Network program this year.

Thank you for taking the time to attend the workshops, and for your willingness to share your activities. As a result of your sharing, many other families will also learn and grow.

We wish you and your families all the best in your future endeavors.

***Thank you to all our partners who contributed funding and resources:***
